

POL002 Environmental Sustainability Policy

POLICY STATEMENT:

Hiflow is committed to minimizing its environmental footprint and promoting sustainable development. We aim to balance operational needs with environmental protection, ensuring our activities enhance the environment and benefit the communities we serve.

AIMS AND OBJECTIVES:

We strive to:

- Reduce waste through recycling and innovative practices.
- Lower carbon emissions by improving energy efficiency and adopting renewable technologies.
- Use environmentally friendly materials and sustainable procurement processes.
- Mitigate environmental impacts and conserve biodiversity.
- Foster environmental awareness among employees, clients, and communities.
- Comply with or exceed all relevant environmental regulations.

RESPONSIBILITIES:

- **Management:** Set and review sustainability objectives, allocate resources, and integrate sustainability into business strategies.
- **Workers:** Follow all sustainability policies and actively participate in environmental initiatives.

MONITORING AND CONTINUOUS IMPROVEMENT:

We will measure our progress using key environmental indicators, such as energy use, waste reduction, and emissions, ensuring continuous improvement through regular reviews and stakeholder feedback.
